

 **Vibrating hopper Delta**

Delta AEV 407

Quality reception of your grapes

The vibrating hopper Delta (from 30 to 150 hl) meets the following requirements :

- Reception of manually or mechanically harvested grapes.
- Even distribution of grapes without grinding up.
- Efficient draining of free juices.

Hopper Delta AEV 810
Destemmer Delta E 2
Pump Delta PM 2

Significant advantages

- Mixed input (Manually or mechanically harvested).
- No moving mechanical parts (no screws or conveyors...).
- No grind up of grapes.
- Guaranteed user safety.
- Guaranteed hygiene and simplified cleaning.
- Less maintenance and mechanical upkeep.

Description

- Reception hopper in 3 mm thick – 304L Stainless steel.
- Vibrating plate in 304L stainless steel, thickness 6 mm, width 700 mm for 30 hl to 60 hl hoppers and width 1000 mm for 50 hl to 150 hl hoppers.
- Watertight between the vibrating plate and the juice reception hopper.
- Stainless steel draining grid of 304L with removable trapezoid (spacing of 4 mm).
- Juice reception container, capacity 700 liters.
- Variable flow from 2 to 30 T/H for Delta AEV 307 and Delta AEV 607 hoppers, 2 to 100 T/H for Delta AEV 510 and Delta AEV 1510 hoppers.
- 2 vibrating motors with feeder with a power of 1,9 Kw / motor for hoppers from 30 hl to 60 hl and 2,2 Kw / motor for hoppers from 50 hl to 150 hl.
- Frequency variation.
- 4 silent vibrationless units.
- Pneumatically controlled trapdoor opening and closing system (adjustable opening).

Options

- Anti-splash plates on 3 sides.
- Weighing device.
- Pneumatic valve for output of free juices.
